Junior Software Test Analyst

- ✓ System development analyst with knowledge in manual and automated black-box and white-box testing of web applications. With knowledge in frontend and backend technologies and testing frameworks such as Jest, Robot, Cypress, and Selenium. Additionally, knowledge in supporting development and documentation tools.
- ✓ With over 8 years of experience, I excel in problem-solving, customer service, corporate systems analysis, remote work, and Service Level Agreement (SLA) management. Possessing strong teamwork skills, adaptability, curiosity, and critical thinking, I bring a blend of administrative and technical attributes. My experience spans various sectors, including commercial and services.
- ✓ Ability to work effectively in a team, strong adaptability, curiosity, and critical thinking with attributes in both administrative and technical areas. I bring experience across various sectors, including commercial and services.
