Junior Software Test Analyst

✔ Systems development analyst with expertise in manual and automated testing, API testing, as well as proficiency in HTML, CSS, SQL, Python, JavaScript, Solidity, MQL4, Java, and several testing frameworks including Jest, Robot, Cypress, and Selenium. Additionally, experienced in development and testing support tools such as JIRA, Confluence, GITHUB, CI/CD, Postman, and Docker.

✔ Over 8 years of experience in problem-solving, customer service, corporate systems analysis, remote work, and Service Level Agreement (SLA) management.

✔ Strong teamwork skills, high adaptability, curiosity, and critical thinking abilities with attributes from both the administrative and technical fields. Experienced in various sectors, including commercial and services.

✔ Currently under development for Software Testing Analysis by Última School.

Last Professional Experience

BrasilCenter· 05/2014 e 01/2023

Specialized Service Representative

■ Responsible for addressing requests with the aim of resolving conflicts, providing clarifications, and responding to inquiries through the analysis of data in internal systems.

Key Achievements: I have been recognized at annual events for outstanding performance in meeting indicators. Successfully transitioned from N1 customer service to a back-office role. Participated in internal campaigns, assisting the legal department and regulatory agency (Anatel) in evaluating requests. Additionally, provided technical support for Claro Residencial products.
